The Sixth Symposium on Hemodialysis and Quality 20-21 September 2013

The Fifth Symposium on Hemodialysis and Quality 24-29 April 2012 CYPRUS

The Third Symposium on Hemodialysis and Quality held in Ankara
to University Medical School, Bolu, 24-26 March 2005. Its book was published
the same year.

The Fourth Symposium on Hemodialysis and Quality in Bilkent, 28-30 April 2003 ANKARA

Due to the changes in the regulations, the failure of economic situation, the instability of the prices
of hemodialysis and the increase in the number of centers leading to serious problems caused us to
organize this symposium 5 years later.

The Third Congress on Hemodialysis and Quality in Turkey
(March 24-26, 2005, Bolu)

The Second Symposium on Hemodialysis and Quality in Bilkent, 28-30 April 2003 ANKARA

The Second Symposium on Hemodialysis and Quality in Bilkent, 1-3 July, 2004

The Second Symposium on Hemodialysis and Quality was in Trabzon, 1-3 July, 2004. Its book was published the same year.

The First Symposium on Hemodialysis and Quality in Turkey 14th May 2005 Ankara

The problems arising from the increase in the number of hemodialysis centers and solutions were discussed. Its book was published in 2005.

The Third Symposium on Hemodialysis and Quality was held in Ankara,
University Medical School, Bolu, 24-26 March 2005. Its book was published
the same year.

The Second Symposium on Hemodialysis and Quality was held in Ankara
University Medical School, Bolu, 24-26 March 2005. Its book was published
the same year.

The First Symposium on Hemodialysis and Quality in Turkey 14th May 2005 Ankara

With the increasing number of dialysis centers, Ayla San focused on the quality in hemodialysis and
started congresses on Quality in Dialysis. She coined the term “Quality in Hemodialysis”.

Our foundation, which obtained “LIVE AND LET LIVE” as a slogan, started to issue a newspaper
called “Renaliz”, every four months with mere educational purposes informing of nephrological news.
It is the first scientific Nephrological newspaper in Turkey which is broadly admired. Renaliz analyzes
every subject in nephrology in a detailed fashion. The 48th issue will be issued soon.

The Foundation of Atatürk University Treatment of Chronic Kidney Diseases, which
was established within the foundation, was relocated in Ankara and renamed as
Anatolian Kidney Foundation to serve better and expand its services nationwide.

Anatolian Kidney Foundation/Health, Education Research Center
(1995-2013)

The book, Turkish History of Nephrology, was completed first as Dialysis in Our Country, then as
Dialysis Transplantation, and finally as Turkish History of Nephrology.

When did I decide to write Turkish History of Nephrology? 1995

• We did not use to have any accessible material or article about the history of Turkish Nephrology
and no one knew what others were doing. Therefore, I started to write it down thinking that “If
one does not know about one’s past, he cannot know about his future” I sent for the academics
in different clinics, who dealt with Nephrology.
• I called them over and over. I faxed them. We didn’t have e-mail then.
• I tried to collect general information and I interviewed those who could not answer by visiting
them at their places.
• I tried to contact Ministry of Health and other institutions, such as Social Security
• The book, Turkish History of Nephrology, was completed first as Dialysis in Our Country, then as
Dialysis Transplantation, and finally as Turkish History of Nephrology.
