Brochures 2013

Our World Kidney Day activities were broadcast on Breakfast News of ATV on 15th March 2013 and on Main News of Channel A on 14th March 2013. Our World Kidney Day activities also have been on World Kidney Day Facebook page.

373 Participants
146 Female (39,1%) 227 Male (60,9%)
Average Age: 36,36 ± 15,44
Average Blood Sugar: 110.23 ± 29,71 mg/dl
Blood Sugar: 200 mg/dl (nobody had this rate)
Average Systolic Blood Pressure: 125,06 ± 14,02 mm/Hg (90-200)
Systolic Blood Pressure: >140 mm/Hg (59 people had this rate (15,8%))
Average Diastolic Blood Pressure: 74,36 ± 11,66 mm/Hg (30-120)
Diastolic Blood Pressure: >90 mm/Hg (nobody had this rate)

Ufuk University Medical School Students worked at stands to give information about Acute Kidney Injury, other renal diseases and organ transplantation and donation. They also gave organ donor cards to volunteers, measured people's hypertension and blood pressure at CEPA and Kentpark Malls from 10.00 a.m. to 10.00 p.m.

Also our students prepared a public survey named 'Stop Acute Kidney Injury'. 336 people attended this survey.

WKD coincided with Medical Festival on 14 March 2013, an exhibition of photographs called 'Our Hospitals Throughout History' was prepared in cooperation with Prof. Adnan Ataç M.D.
